

Cellgevity

The ULTIMATE in Glutathione Enhancement
Glutathione-Your Body's Miracle Molecule

Ingredients

Alpha Lipoic Acid

potent endogenous antioxidant considered a network antioxidant, known to recycle other antioxidants

Broccoli Seed extract (sulforaphane glucosinolate)

induces the antioxidant enzymes, the glutathione-S-transferases and supports phase II detoxification. It is an indirect antioxidant. The product we use contains the highest concentration of the active ingredient sulforaphane gluconsinolate and is the same product used in the studies at the Johns Hopkins University School of Medicine.

Turmeric root extract (curcumin)

has anti-inflammatory properties and functions as both a direct and indirect antioxidant. 29% improved bioavailability.

Resveratrol

Is an antioxidant found high in concentrations in grape skin, also found in wines, with higher concentrations in red wine verse white wine.

Resveratrol is thought to account in a large part for the so called "French Paradox", the French Paradox – the findings that the rate of coronary heart disease in France is observed lower in other countries with a similar risk factor – has been contributed to the consumption of red wine.

Resveratrol as an antioxidant known to have cardioprotective properties.

Grape Seed extract

Grape Seed proanthocyanidines have antioxidant activity, as well as anti-inflammatory properties.

Quercetin

is a flavonoids with antioxidant properties, is an exogenous antioxidant that we consume through fruits and vegetables.

Milk Thistle (silymarin)

used to support a healthy liver, contains flavonoids and has antioxidant properties.

Vitamin C

an exogenous antioxidant which is considered a network antioxidant and known to support the immune system.

Selenomethionine (Selenium)

Selenium is a cofactor needed for the antioxidant enzyme, glutathione peroxidase. The glutathione peroxidase enzyme is responsible for the detoxification of lipid peroxides.

Cordyceps

has been used as a Chinese medicine for centuries and has been valued for its activity in restoring energy, promoting longevity and improving quality of life.

Black Pepper (BioPerine)

assists in the absorption of Selenomethionine, Vitamin C and Curcumin (turmeric root).

Aloe Extract

has the most bio-active content of acemannan the active ingredient in aloe. Aloe is known to support the immune system and has antioxidant functions.

Supplement Facts

Serving Size 2 Capsules
Servings Per Container 60

Amount Per Serving	% Daily Value	
Vitamin C (as Calcium Ascorbate USP)	42.5 mg	71%
Selenium (as Selenomethionine)	12.5 mcg	18%
RiboCeine® (D-Ribose-L-Cysteine)	125 mg	*
Proprietary Blend:	580 mg	*
Cordyceps, Curcumin, Resveratrol, Alpha Lipoic Acid, Grape Seed Extract, Quercetin, Milk Thistle Extract (Silybum Marianum), Broccoli Extract, Aloe Extract, BioPerine†.		

*Daily value not established.
